## HEALTH INDEX

♦ Exceptional dietary choice, nutritional and tasty. It contains protein of high biological value, phosphorus, selenium, potassium and minimal fats.

♥ Light and refreshing choice, rich in antioxidant components that strengthen the liveliness of the body tissue. If you want to minimize the fats replace the Haloumi cheese with Cottage cheese.

♦♦ Main course rich in  $\Omega$ -3 and *monosaturated fatty acids*, which help in the reduction of cholesterol and the good function of the cardiovascular system.

♥♥ Light dessert with semi-skimmed milk and honey, reinforced with fibre and a variety of vitamins, that stimulate the defence of the organism.
